

1L Summer Student 2020

At McDougall Gauley LLP, we are looking for people with drive, integrity, and attention to detail. In return, we want to give you the knowledge, guidance, and experience to develop your legal career in private practice.

McDougall Gauley LLP offers students the opportunity to work with experienced lawyers in a number of practice areas. Students can expect to conduct legal research, prepare research memoranda, and draft legal documents, while gaining an understanding of private practice. In addition, students attend court and client meetings and make connections to help develop their career.
